

Keynote Resource Now Offers Systematic Approach in Corporate Event Planning

What do Fletcher Christian's shoes and corporate event planning needs have in common? The answer may be more than everyone thinks.

Santa Barbara, CA, March 01, 2008 --(PR.com)-- What do Fletcher Christian's shoes and corporate event planning needs have in common? The answer may be more than everyone thinks.

Remember Fletcher Christian?

He was the leader of the famous, "Mutiny on the Bounty," during which a stalwart crew fed up with the status quo as interpreted and administered by the tyrannical Captain William Bligh seized control of the Bounty, sent Bligh and a few loyalists out to sea in an open boat and sailed off to establish what they hoped would be a community free of conventional restraints on Pitcairn Island.

"I've always wondered whether or not Fletcher Christian was wearing shoes that historic April evening in 1789 when the crew awakened him to lead the rebellion."

Who is Yvon Douran?

Yvon Douran is the founder and president of Keynote Resources and - as it happens - a direct descendant of Fletcher Christian. Equally incurably fascinated by shoes - all kinds of shoes, Yvon has led Keynote Resource to become one of the most successful Speakers Bureaus in the US representing world-class speakers and providing tools for corporate meeting and event planners.

Keynote Resource' innovative corporate event planning tools include a down-loadable planning timeline and support documents that allow users to access everything required to plan a successful meeting delivered right to one's desktop. "When you're planning a meeting it doesn't matter whether you're barefooted; wearing designer or vintage. What counts is that you always put your best foot forward."

Mutinies and meetings have more than a few things in common.

Boldness counts, but so does careful planning. To be successful both mutinies and meetings have to be carefully plotted from the first step to the closing act. Great meetings like great mutinies break the restraints of convention, but never at the expense of the participants. And a great meeting like a great mutiny should inspire one to pursue new frontiers and new possibilities.

Keynote Resource' systematic approach towards [corporate event planning](#) has proven to be extremely effective and a must have for any aspiring event planner.
