

TeleType Releases Commercial Truckers GPS with Hazmat Routing

TeleType offers portable GPS navigation system for professional truck drivers, bus drivers, and RV'ers. The product now supports 10 levels of Hazmat routing and offers commercial truckers the ability to enter the size and weight of their vehicle to effectively navigate based on vehicle characteristics.

Boston, MA, March 10, 2008 --(PR.com)-- TeleType has released Commercial Truck WorldNav Portable GPS system based on TeleType's award winning navigation product line. This advanced touch screen GPS offers Truck Routing GPS navigation solution for professional truck drivers, bus drivers, and RV'ers. The product insures that routes will follow roads that are suitable for truck travel, and yet the commercial driver can rely on the routing as it takes into account commercial truck restrictions such as bridge heights and clearances, load limits, one-way road designations, left-hand and dangerous turn restrictions, and allowances. For example, a typical set of restrictions for a semi-trailer could be entered as 13'6" height, 80,000 lb weight, 53' length, and 96" width. Furthermore, 10 levels of Hazmat routing are now supported. [The commercial drivers GPS is available in two screen sizes, 3.5" and 7" diagonal.](#)

Key Features:

- * Truck Restriction Routing insures the commercial driver travels on permitted roads only
- * Pays for itself - Avoid costly tickets, avoid tolls, navigate unfamiliar territory efficiently, save time and gas.
- * Hazmat routing - offers 10 levels of Hazmat routing
- * Voice directions - Pronounces street names in English or Spanish
- Example: In 2 miles, take Exit 23, to I-95 North
- * Touch Screen GPS - with U.S. and Canada maps pre-installed
- * MP3 & Video Player - for relaxation during loading or rest time
- * Easy Updating - Maps and program installed to secure digital card allowing easy exchange
- * Most extensive POI database in the industry
- * 12+ million Points of Interest pre-loaded including truck stops and weigh stations
- * Accessories Included - for powering, re-charging and mounting.
- * Waypoints - add unlimited number of your own waypoints.
