Clove cigarettes are also known as "Kretek cigarettes." Kreteks were made by Haji Jamahri in the early 1880's, originally for medicinal purposes. The clove cigarettes processed by famous Madura Tobacco from East Java contained a mix of natural Indonesian cloves and spices, which produce a sensational exotic fragrance typical of an Indonesia tropical island.

Manufacturing Kretek cigarettes is an involved process in several places in Indonesia, melding domestic quality tobaccos with a variety of ingredients like cloves, nutmeg, flavorings and a mysterious sauce. In the early 1880, Kretek cigarettes were thought to help asthma and some used them in worship ceremonies. Starting in the early 1990s, several successful tobacco companies in Indonesia started to commercialize the Kretek to the world.

Clovecigarettesstore.com offers the freshness and famous clove cigarettes brands like: Djarum, Sampoerna, Bentoel, Gudang Garam, Wisnilak, Panglima, U Mild, Marlboro Kretek, and other clove cigarette selections.
