

## **Weathered Stoneä Featured on ABC’s Extreme Makeover**

*Unique Solution Found in Weathered Stone™.*

Kansas City, KS, March 14, 2008 --(PR.com)-- On a special two hour edition of ABC Extreme Makeover: Home Edition - “The Gilyeat Family” receives one of the most remarkable home makeovers ever in the history of the show. While Ty and the designers, local builder Kevin Green and hundreds of volunteers work on the home, the Gilyeat family goes to Los Angeles to a surprise meeting with “Hanna Montana's” Miley Cyrus.

Many well know high end finishes and products went into construction including Weathered Stone, the world's first bendable stone. After finding Gary Sanders on the National Guild of Professional Paperhangers (NGPP.org) designers were introduced to Weathered Stone by Sanders who is also one of the countries top promoter/installers in the U.S.

“Everyone was impressed with Weathered Stone's ability to wrap around corners” Stated Sanders, “ It was the perfect product for around the murals.”

Weathered Stone™ is produced on a canvas backing; the texture is primarily plaster, and has 15% additives for strength and durability. The product is then cut, cracked, and colored by hand. Weathered Stone™ has 22 standard colors, and custom colors are available. The product is manufactured in pre-cut sizes, and can easily be cut down to any size or shape.
