

## **Credit Restoration Shop, LLC Announces Release of New Backend Credit Audit Program**

*Credit Restoration Shop, LLC, a partial owned subsidiary of US Mortgageshop, Inc., a Maryland Installment loan lender, announces the finalization of its proprietary consumer credit restoration/audit/dispute software.*

Baltimore, MD, March 20, 2008 --(PR.com)-- Credit Restoration Shop, LLC, a partial owned subsidiary of US Mortgageshop, Inc., a Maryland Installment loan lender, announces the finalization of its proprietary consumer credit restoration/audit/dispute software. Used in-house for the processing of consumer requests for credit restoration, it boasts unique algorithms to effectively and quickly process the credit auditing process. Says Chad Virostek, new President of Credit Restoration Shop: "Our new backend developed in part with a national brand media company allows us to process credit restoration/repair with a newfound efficiency," he further adds. "To my knowledge, no company in the country has the algorithm we utilize to automatically assess the best responses for each scenario in the credit validation and auditing process...The net result is maximum credit score increase in each round of the credit repair process, and effective validation and enforcement of consumer protection laws like the FCRA, FDCPA, FACTA, and HIPA. We are proud to support the country's effort to dig out of this credit debacle brought on by unscrupulous banks and lenders... our efforts are borne from a commitment to aid people in these trying financial times."
