

## **Moon Costumes Adds Custom Costume Division**

*Moon Costumes, a leading online retailer of Halloween costumes, masks, wigs and party supplies, has launched a custom-made costume service.*

Durham, NC, March 23, 2008 --(PR.com)-- Moon Costumes, a prominent online retailer of [costumes](#), masks, wigs, cosplay, and Halloween props announces a [custom costume](#) service and has begun accepting commissions for Halloween 2008.

There's no doubt that the best Halloween costumes are home-made, but for those people who have great ideas, but don't have the time to craft a custom character representation, they can do it for them.

"During our trial period over the last 6 months, we have done 38 character costumes ranging from 1954 movies, to Japanese cartoons, to old Broadway shows - with 100% of our customers satisfied."

The materials & styles Moon Costumes works with include leather, pleather, spandex, lycra, cotton, denim, polyester, silk kimonos, satin dresses, plastic armor, metal detailing, custom wooden weapons, and more.

The Moon Costumes custom service department anticipates that it will be completely booked and unable to accept any more jobs by August 1st. In addition, some designs may require sculpting or PVC moulding and this will add to the time and cost of the production.
