

Cellhut Launches Special Spring Savings on Unlocked Cell Phones

One of the internet's leading sellers of unlocked cell phones has many Spring season deals that deserve a second look.

New York, NY, April 05, 2008 --(PR.com)-- With the Spring season officially underway it's important to look back at all the special deals that Cellhut.com has announced. There have been two main opportunities to save at the site over the last month and both of them are great additions to the already low prices that Cellhut.com offers.

The primary savings are the March Madness deals which are still going on and deserve to be taken advantage of. One special offer included is the HTC 8525 available for \$599.99 which represents the pinnacle of Smartphone functionality. This phone has a large high resolution touchscreen and slide out QWERTY keyboard to enable precision typing. It's a Windows Mobile Device which means it has enough options to qualify as a portable office. All these utilitarian options don't mean it lacks in the multimedia department but actually sports a 2 Megapixel camera.

Another unlocked cell phone featured in the March Madness sale is the LG Prada Phone available for \$423.23. This phone certainly takes the touchscreen technology of Apple's iPhone and incorporates call and end buttons at the bottom. All the standard features are included in the phone such as a 2 Megapixel camera, Bluetooth technology, and a memory slot card.

The other exclusive deal on the Cellhut.com website is the "Drive Safe With Cellhut" promotion in which free LG headsets are being giving away. This promotion is part of a public campaign to raise awareness about the dangers of driving while using the cell phone. With a headset, drivers are able to have both hands on the wheel and concentrate on the road. The item is free, but a shipping cost of \$0.99 applies.

About Cellhut.com

Cellhut.com places customer satisfaction as its highest priority and promises to make a positive impression on the clientele they do business with. The business of dealing with unlocked mobile phones relies on a high level of technological knowledge that the well-educated support staff is ready to handle. By shopping with Cellhut.com you choose your phone, not your service.
