

Strategy & Solutions Seeking Business and Technology Writers and Content Contributors

Strategy & Solutions is seeking business and technology journalists, academic writers, management & IT consultants, and strategists from a variety of disciplines (i.e. sales, marketing and technology) to contribute articles and content for its recently launched information service.

Austin, TX, April 09, 2008 --(PR.com)-- Strategy & Solutions is seeking professional content contributors to provide thought leadership, strategic insights and actionable ideas for business and technology professionals to leverage for organizational growth and career development.

Strategy & Solutions publishes and syndicates media using a variety of interactive and editorial reporting formats including case studies, interviews (written and podcasts), research, product and service reviews, news articles, blogs, and rich media.

Strategy & Solutions is an online media publisher and information service that reaches business and IT executives around the world and the professionals who influence and provide products and services for them.
