

## **New Book on Schizophrenia of Help to Families**

*Schizophrenia: Medicine's Mystery - Society's Shame written by Marvin Ross with a preface by David Dawson MD FRCP(C) is now available. Marvin Ross is an accomplished medical writer. Dr Dawson was formerly Professor of Psychiatry at McMaster University and Psychiatrist-in-Chief at the Hamilton Psychiatric Hospital.*

Hamilton, Canada, April 21, 2008 --(PR.com)-- The purpose of this book is twofold:

First, it is hoped that a candid discussion of the disease, the suffering that is inflicted on those with the disease by a mostly uncaring society and an explanation of what schizophrenia is and how the treatment of its victims can be improved will advance our appreciation of the problem.

Second, it is intended that this book will provide information and comfort to the families of the victims and hopefully empower them in their struggle.

It can also be used for families to give to friends and other family members in order to help them understand and to help to dispel the myths about serious mental illness they might have.
