

RideSearch Names Top 10 Cities for People Looking to Carpool

RideSearch.com, the free nationwide carpool matching service, has named the top 10 markets for people who are searching for someone to carpool with.

Carrollton, TX, April 26, 2008 --(PR.com)-- RideSearch.com, the free nationwide carpool matching service, has named the top 10 markets for people who are searching for someone to carpool with in the first quarter of 2008. They are as follows:

1. New York City, New York
2. Dallas, Texas
3. Chicago, Illinois
4. Houston, Texas
5. Seattle, Washington
6. Washington DC
7. Los Angeles, California
8. Minneapolis, Minnesota
9. San Francisco, California
10. Atlanta, Georgia

RideSearch has based these numbers on the number of visitors to their web site. RideSearch.com has seen the number of people looking for a carpool double every month since January of 2008. "Because of high gas prices and the green movement more and more people are considering carpooling as a way to decrease their gas prices and help cut down on greenhouse emissions," says Brian Bass, president and CEO of RideSearch.com. "Carpooling is something that can have an instant effect on our personal gas prices. Having just one other person in the car can turn \$3.50 a gallon into \$1.75 a gallon. Having a full car can turn that into less than 88 cents a gallon. We haven't seen prices like that since the 80s. People all over the nation can look to RideSearch.com to match them up with someone who lives and works near them."

About RideSearch.com:

RideSearch is a free nationwide carpool matching service. RideSearch was created and founded by Brian Bass, CEO of Motivium Consulting, Inc in 2006 and was released in January of 2008.
