

## **To Your Health Naturally from Zenza and Happy Tales**

*People are always looking for the natural way to health. Here is a company and its products that really meet that need. Zenza Life Sciences provides consumers quality products for personal use or to provide an income opportunity as a home based business.*

Jackson, NJ, May 01, 2008 --(PR.com)-- Zenza™ incorporates the best of nature and science with American Technology to create exceptional product formulations. Zenza's unique life-enhancing product line creates a powerful combination for total health and wellness.

Through Energetics™ Technology, Zenza has provided a breakthrough in superior nutrition. This unique delivery system helps generate subtle energy into the body, similar to Acupuncture and "Chi" (also known as "Ki)." Chi is energy that influences the body on all levels - mental, psychological, and physiological. It is defined as, "the circulating life energy that in Chinese philosophy is thought to be inherent in all things." In traditional Chinese medicine, the balance of negative and positive forms in the body is believed to be essential for good health. By harmonizing and increasing the level of chi, the body can move stagnant chi thereby opening blockages filling each cell with fresh chi to enhance mental, emotional, and physical health.

This revolutionary process, along with Zenza's unique ionic mineral blend, is delivered through ION5™ in a form that is easily recognized and highly absorbed by the body. No other mineral supplement is naturally as powerful. This breakthrough formula is added into all Zenza™ products to maximize the absorption of ingredients in each formula, and overall effectiveness - making the Zenza product line one of the most superior in the industry.

Zenza™ products are developed with the expertise from Zenza's dynamic formulators and manufacturing experts who share the company's vision to enrich the quality of life through effective products for the Body, Mind & Spirit. Zenza™ products are manufactured in state-of-the-art facilities with wholesome ingredients - all at very affordable prices.

Happy Tales and Zenza Life Sciences have partnered together to bring consumers all natural products to help people and pets feel and look better and enjoy life more.
