

iPhone Case Innovation Meets Avant-Garde Design

May 2008 - ivyskin.com releases it highly anticipated XyloT2 Special Edition cases for iPhones and iPods

San Jose, CA, May 06, 2008 --(PR.com)-- ivyskin.com: XyloT2 Special Edition cases for iPhone and iPod touch.

Now available, the finest in sleek durable protection, ultra slim XyloT2 special edition Modena Yellow, Raz Red, Royal Blue and Jet Black made of hard-shell plastic and features a minimal wall thickness, full touch-thru acrylic screen and Xylo Surface scratch protector. Full Acrylic frontal protection provide Touch Through access in addition to impact and scratch protection and the Xylo surface protection layer, provides a full scratch proof case.

The Yellow, Blue, Red and Black high gloss, hard protective coating provides added scratch resistance and color depth all in metallic paint. Xylo is a scratch resistant liquid plastic coating that is applied as a final step in ivyskin's proprietary coatings process. The Xylo coating is applied to each of their product in a custom atmospheric chamber in its liquid form, and then cured with ultra violet light to achieve superior scratch resistance and clarity.
