The economy is going through a rough patch right now and the housing market has felt a huge hit. It is up to all of us to help make a difference. Congress passed the Economic Stimulus Act of 2008 in which taxpayers may be entitled to a maximum rebate of \$600 for individuals and \$1200 for married couples. The rebates are the centerpiece of a \$152 billion package in the Economic Stimulus Act of 2008 designed to jumpstart the economy. "At Valencia Stone we believe that everyone's help is needed for there to be a positive result, which is why we are offering our Economic Stimulus Program Program. All you need is a valid copy of your 2007 tax return with a legal form of identification and you are eligible for the Valencia Stone stimulus package," said Francesco Piazza, executive director at Valencia Stone. He goes on to say, "it may not be enough to make a huge impact, but we are going to do whatever we can to help out in a positive way, even if all we do is create awareness for other small businesses to come up with their own creative programs to join the fight with us for a better tomorrow."
