

Citinannies.net Re-Launches a Service to Help Families and Nannies Fight Nigerian Scams

CitiNannies.net is the first family membership organization to offer families and candidates prescreening for the defense of fraud schemes and Nigerian scams.

Houston, TX, May 17, 2008 --(PR.com)-- Citinannies.net offers pre-screened family and nanny registrants the ability to locate each other from the comfort of their own home, 24 hours a day on their secure website. The proprietary online recruiting process is designed to offer families and nanny registration a high quality recruiting experience at an affordable cost.

This week, citinannies.net re-launches their flagship service to offer families and candidates more features including saved searches, the ability to send private emails to each other, and a new public forum for all members to ask questions about the new service(s) and how it all works to help the domestic recruiting industry to combat Nigerian scams, identity theft, and consumer fraud.
