

All Purpose Folding Beach Cart with Balloon Wheels

Benicia, CA, June 10, 2008 --(PR.com)-- Wheeleez, Inc. of Benicia, CA, North American distributor of Wheeleez ® products, introduces a new beach cart for 2008. The Beach Cart Folding-Mini is an all-purpose transport cart designed to handle awkward gear with ease when on beach, park or sport field outings. This cart, featuring Wheeleez ® balloon wheels, will not sink or plow into soft ground like sand, mud or grass. It easily carries small chairs, coolers, sun shades, and camera equipment over most any terrain without the cart getting stuck.

The Beach Cart Folding-Mini is compact, lightweight, yet still accommodates most beach gear.

The folding frame design and detachable wheels permit quick disassembly for easy transport and storage.

Features include:

Wheeleez ® 22cm balloon wheels with quick release knobs for easy attachment and/or detachment

Epoxy coated steel frame and chrome plated steel axle

Tie-down straps and elastic band to secure gear during operation

Wide wheel bases to ensure extra stability
