

## **New, Soft Beach Wheels Make a Good Product Great**

Benicia, CA, June 11, 2008 --(PR.com)-- Wheeleez, Inc., North American Distributor of Wheeleez® products, introduces a wheel conversion kit for the popular Wonder Wheeler® Beach Cart. Market demand from beach enthusiasts owning Wonder Wheeler® carts prompted Wheeleez, Inc. to develop the Beach Wheel Conversion Kit for Wonder Wheeler®.

This kit permits quick and easy exchange of Wonder Wheeler's® stock rear wheels in favor of special, low pressure, soft balloon wheels offered by Wheeleez, Inc. This simple wheel conversion dramatically enhances the carts performance by allowing it to roll over most any terrain, especially soft sand, mud or environmentally sensitive areas with ease. No other wheels can do that.

The kit features:

- (2) 22 x 12.7cm (8.7" x 5") pliable, low pressure Wheeleez® balloon wheels
- (1) 12.7mm x 72cm (1/2" x 28.5") stainless steel axle
- (2) Axle-to-frame connectors with Spacer Washers and stainless steel fasteners
