

Orlando Scooter Rental Company Announces the "Dream" Mobility Scooter for Guests at Walt Disney World for Disney Scooter Rental and Universal for Universal Scooter Rental

Scooter Vacations, a premier Orlando scooter rental company headquartered in Orlando, Florida, announces the newest addition to its mobility scooter rental fleet, the Dream. The Dream is the company's first model specifically selected for Disney Scooter Rental or Universal Scooter Rental visitors staying in hotels on-property and plan to use resort-provided bus, boat or monorail transportation to travel between hotels, associated theme parks and other on-property venues during their stay.

Orlando, FL, June 13, 2008 --(PR.com)-- [Scooter Vacations](#), a premier Orlando Scooter Rental company headquartered in Orlando, Florida, announces the newest addition to its mobility scooter, electronic convenience vehicle (ECV) rental fleet, the Dream. The Dream is the company's first model specifically selected for Disney Scooter Rental or Universal Scooter Rental visitors staying in hotels on-property at Walt Disney World or Universal Studios Florida and plan to use resort-provided bus, boat or monorail transportation to travel between hotels, associated theme parks and other on-property venues during their stay. You can view a video of the Dream in action at the company's website at www.ScootOrlando.com.

“Our four current models have proved a huge success; they're an especially big hit with those guests staying off-property that need a scooter they can fold up or easily disassemble and put in their car trunk,” says Scooter Vacations General Manager Brian Andrew. “Now with the Dream, guests staying on-property have an even more enjoyable and smoother-riding alternative to the typical medical-type mobility scooter.”

The Dream—identified by customers as “the crème-de-la-crème of scooters”—“features a fun, chopper-style motorcycle look, including chrome accents and the largest wheels available on any mobility scooter, providing the smoothest ride possible. It also includes front and back baskets and the largest, most comfortable mobility scooter seat, which resembles a luxury car seat. This “dream” seat features an adjustable headrest, moves forward and back, and reclines and swivels for easy on and off maneuvering.

The Dream accommodates a weight capacity of up to 500 pounds; with its adjustable seat and slick styling, anyone, large or small, can enjoy the look, luxury, fun and ride of the Dream. It is welcome in amusement parks and all public venues as it adheres to, and meets the official FDA-approved government standard rating for, an electronic convenience vehicle.

In keeping with Scooter Vacations commitment to provide the largest, most versatile selection of sporty, state-of-the-art rental scooter models, the company will rent on-property guests the Dream for only \$40 a day, taking Orlando scooter rental options to a whole new level.
