

Cellhut Presents Special 4th of July Savings on Cellphones

One of the internet's leading sellers of unlocked phones is having a special 4th of July sale on the latest phones.

New York, NY, June 20, 2008 --(PR.com)-- This independence day free yourself from the iron grip of carriers and purchase and unlocked phone. All the phones featured in the sale are unlocked and some are compatible with 3G. This makes Cellhut's July 4th sale the best time to purchase the latest in cell phone technology at a great price.

If getting incredible phones from manufacturers such as Sony, Nokia, and Samsung wasn't enough, with the July 4th coupon code, the order will not have any shipping charges.

It's difficult to select the best phone out of the sale, but there are three in each price range that definitely stick out in terms of their amazing combination of price and features.

In the high-end and for those looking for a show stopper of a phone will find the Nokia N95 8 Gigabyte model for \$668.98. This is a phenomenal price for such a beast of a phone. The features include a 5 Megapixel camera, built-in GPS, a QVGA screen, and naturally Bluetooth connection.

For those who don't need quite so many features and are looking for a slimmer phone will find that the Sony Ericsson W880i for \$299.99 and the Sony Ericsson K660i for \$419.99 are perfect solutions. The W880i has an amazing 2 Megapixel camera, Memory Stick Micro support, and 3G support. The K660i also has a 2 Megapixel camera, a slim design and comfortable keypad, Bluetooth, and Memory Stick Micro support.

Finally, for the bare minimum in a phone the Sony Ericsson W200i for \$122.99 is certainly the best choice. There are many great features and superior styling involved with this phone. Only 18mm thin, 27 Megabytes of internal memory, and a VGA camera are just a few of the features that this great phone has.

Only until July 4th are the 18 featured products on sale with the free shipping.
