

French Roulette Magic at Platinum Play Online Casino

Platinum Play Online Casino has a distinctly Gallic ambiance this month as they launch the latest high tech version of one of the most popular table games in gambling history - French Roulette Gold.

Belize City, Belize, July 08, 2008 --(PR.com)-- This stylish and sophisticated new addition to their top-of-the-line Gold Series of table games adds a fresh dimension to the traditional French Roulette game, with a new chip hopping feature, classy full color advanced graphics and crystal clear digital sound effects that capture the murmur of the crowd, the whirl of the wheel and that distinctive metallic tinkle as the ball lands.

Introduced in the late eighteenth century, Roulette soon spread throughout Europe, where it remains popular in classical casinos throughout Europe, from London to the Casino de Monte Carlo. Online gamblers enjoy this European version of the game, too blending its historical excitement and appeal with the speed and convenience of the Internet.

This is [French roulette](#) as it is played throughout Europe. The smooth running wheel has 36 numbers and a single zero, and the stylishly Gallic feel is apparent in the crisp graphics, with titles like Manque (1 to 18) Impair (Odds) Passe (19 to 36) and Pair (even) in addition to a range of special wagers known as call bets.

The game designers have been faithful to European norms in constructing the odds table, which has values as follows:

Straight: 35:1
Split bet: 17:1
Street bet: 11:1
Square bet: 8:1
Line bet: 5:1
Column bet: 2:1
Dozen bet: 2:1
Even bet: 1:1

Chip distribution is modeled as closely to the current European game as possible, with chips available in a range of six denominations starting at 1.00 and escalating to 50.00, which can be played in mixed chip piles.

This is a great opportunity to play a thoroughly modern version of a great casino classic, all in the comfort and privacy of your own home courtesy of a free software download from [Platinum Play Online Casino](#).
