

GuardEra Access Solutions Announces MedAppz EHR Practice

GuardEra & MedAppz deliver web based electronic health records solution for physician offices.

Lombard, IL, July 09, 2008 --(PR.com)-- Guardera Access Solutions, Inc., a THISA founding member and local IT solutions provider today announces the establishment of a practice specifically focused on delivering MedAppz iSuite, a comprehensive system that allows physician offices to securely schedule appointments, chart patient information, write prescriptions, bill patients, and file claims, while utilizing the compelling Software as a Service (SaaS) web delivery model. The MedAppz iSuite is currently used in more than 200 clinics across the nation.

Building on the national THISA - MedAppz partnership, Guardera will leverage its experience in healthcare IT infrastructures to enable enterprise grade Practice Management & EHR capabilities cost effectively. "EHR and physician practice management is a perfect opportunity to demonstrate the power and flexibility of the hosted Software as a Service model" said Mike Panno, GuardEra's CEO.

"We've brought Megan Ebright on to drive business and we expect the combination of Megan's experience working in the healthcare industry & MedAppz to be a powerful force in this marketplace."
