

2X Selects Azlan a TechData Company as Distributor for Central Europe

2X has signed a distribution agreement with Tech Data one of the world's largest distributors of technology products from leading IT hardware and software producers.

Irving, TX, July 15, 2008 --(PR.com)-- 2X Software Ltd, the international developer of server based computing software, today announced that it has teamed up with Azlan a leading distributor of high quality IT infrastructure products for European businesses. With the 2X Server Based Computing software portfolio Azlan can now provide a fully integrated and highly reliable virtualization business grade solution to its customers.

2X Software offers tailor-made, easy-to-implement and cost efficient server based computing solutions.

The product range of 2X includes the 2X Application Server for Windows Terminal Services for the publishing of applications, the 2X LoadBalancer for Windows Terminal Services and Citrix-Server and the 2X ThinClientServer for Windows and Linux. Shortly, the 2X VirtualDesktopServer supporting VDI solutions like Hyper-V, VMware, Virtual Iron and Parallels will be released.

Daniela Schlawin, sales manager for the CE markets comments on the advantages of using 2X Products 'Easy installation, administration and the high scalability plus a very competitive pricing are the main criteria that characterize our products. We can recommend our solutions to all types of businesses.' According to Mrs. Schlawin, the cooperation with Azlan which is part of the TechData group and one of Europe's largest IT-distributors will be of great benefit to the 2X channel partners.

Birgit Nehring, Director of Software & Solutions at Azlan is pleased about the new distribution agreement 'With the acceptance of 2X Software, we are enlarging the virtualization offer to our VAD-Partners by offering attractive software solutions from a specialist. We are clearly creating more and new possibilities because Desktop Virtualization is and will be one of our most important matters, to stay up to date with the market's requirements - today and tomorrow.'

About 2X
