

Renasis Again Named Winner of Utah's Top 25 Under 5

UVEF Recognizes Renasis as One of Utah's Top 25 Companies Under 5 Years Old for a Third Consecutive Year.

Provo, UT, July 22, 2008 --(PR.com)-- Renasis, LLC, a leading technology innovator specializing in the design, development and manufacture of wireless communications products today announced that it has again been selected by the Utah Valley Entrepreneurial Forum as one of Utah's fastest growing companies in business less than 5 years. Companies selected in the 25 Under 5 Competition are recognized for profit, growth, equity funding, job creation and job quality.

Launched in September, 2003, Renasis has grown organically through the concentrated efforts of its founders and able team. Its continued success is due to quick time-to-market product development and evolutionary products such as the SAP36g High Powered Access Point, the only true 820 mWatt FCC certified access point on the market today, and the new MCB-819 Dual Band Mobile Cellular Booster that bolsters both cellular and wireless signals for cell phone use and data transfer. Renasis products lower capital expenditures, decrease installation and maintenance costs, and take wireless network deployment to the next level. With Renasis, system administrators can implement cost effective networks that are fast and secure and thereby increase their own productivity.

“We understand this has been the most competitive year to date for the Top 25 Under 5 awards, with more applicants than ever before,” said Renasis CEO Ki Chun. “We are honored to be recognized with so many innovative companies and will keep working hard to grow the company. We are confident we will see continued growth as we consistently provide solutions for the marketplace.”

The award was presented at the UVEF Top 25 Under 5 luncheon, July 10, 2008 in Lindon, Utah, at Noah's. Sponsored by the Utah Valley Entrepreneurial Forum, a nonprofit organization which promotes the creation, development, and growth of entrepreneurial ventures, the Top 25 Under 5 Award recognizes the most commercially successful companies in Utah Valley under five years old. Companies were evaluated by a panel of judges including angel investors, venture capitalists, and entrepreneurs who recognize demonstrated growth and commercial potential of Utah companies.

About Renasis

Renasis, LLC, specializes in the design, development and manufacture of wireless communications products, services and system solutions.
