North American Seminars Inc. Opens Its 2010 Continuing Medical Education Course Sponsorship Program

North American Seminars Inc. is now accepting medical facilities that wish to host continuing medical education courses at their medical facility in 2010. This program allows a facility to showcase its operation and capabilities to the medical community as well as reduce their overall costs to educate their physical therapy and occupational therapy team members. In 2009 over 45 facilities hosted over 250 live training events.

Nashville, TN, November 25, 2009 --(PR.com)-- North American Seminars, Inc. is a leader in medical education for physical and occupational therapists. North American Seminars Inc. courses are designed to meet and exceed the current needs of the physical therapy and occupational therapy continuing medical education market. North American Seminars medical educators are the best in the physical, occupational therapy and physician community. Each year, North American Seminars delivers medical education to over 200 health care systems and medical centers. North American Seminars, Inc. focuses on helping medical facilities meet today's clinical challenges with the most updated scientifically and clinically based information and training.

Partnering with North American Seminars is about collaborating with a company with creativity, organization, great educational programs and excellence.

North American Seminars, Inc. works with their partnering facilities to ensure that the educational experience is memorable. A North American Seminar conference coordinator will work together with the staff at the sponsor facility to organize and implement a great educational experience. North American Seminars Inc. provides in-depth information and technical support to the sponsor facility prior to every course. In addition, the North American Seminars Inc. weekend coordinators are available for every course to ensure your technical and audiovisual questions and concerns are addressed. The North American Seminars Inc. team works together with the sponsor facility to provide all the information, marketing, course material and site setup information needed for a successful educational experience.

Take full advantage of North American’s Seminar experience by joining the Ambassador program. With over 100 educators and topics, North American Seminars Inc provides the sponsor facility with the most up-to-date evidence based medical information. Choose to sponsor a course at your facility or host a private course just for your staff. The options are limitless. North American Seminars Inc will work with the sponsor facility to ensure that all their medical education requirements are fulfilled.
