Dr. Samuel Lam, Facial Plastic Surgeon, Keynotes on Topic of Fat Grafting

Dr. Samuel Lam, a Texas based facial plastic surgeon, will be keynote speaker on subject of fat grafting at Belgium conference.

Dallas, TX, August 30, 2010 --(PR.com)-- Dr. Samuel Lam, M.D., F.A.C.S., a double board-certified facial plastic surgeon, and owner of Lam Facial Plastics in Dallas, Texas, will be a keynote lecturer at the XX Congress of the European Association of Cranio-Maxillo-Facial Surgery in Bruges, Belgium. The event, which takes place from September 14 – 17, 2010, offers participants the opportunity to broaden their knowledge and skills in the field of cranio-maxillo-facial surgery. Dr. Lam will be giving a keynote lecture on his philosophy regarding fat transfer, and will also teach a course on his technique for facial fat grafting.

Dr. Lam offers his fat grafting and fat transfer techniques at his Dallas, Texas facial plastic surgery center, Lam Facial Plastics. He also offers additional plastic surgery procedures, including facial rejuvenation, reconstructive surgery, rhinoplasty, otoplasty, skin resurfacing, laser procedures, hair restoration, and ethnic cosmetic surgery procedures. His medical philosophy, combined with his innovative and effective facial plastic surgery techniques, have earned Dr. Lam the distinction of being a pioneer and leader in the field of facial plastic surgery.

“I look forward to participating in this year’s cranio-maxillo-facial surgery congress in Belgium,” explains Dr. Lam. “It is a great opportunity to share my philosophy on the topic of fat transfer and its place in the realm of plastic surgery. It also allows other medical professionals to benefit from my experience and expertise in fat grafting techniques through a detailed educational course. By facilitating this exchange of knowledge from medical specialists around the world, all participants of the congress will have the chance to broaden their knowledge base, in medical theory as well as hands-on techniques. That ultimately makes us all better surgeons.”

Dr. Samuel Lam is author of the international bestselling medical book, Complementary Fat Grafting, as well as four other major medical textbooks. He has also written numerous scientific papers and has contributed to chapters in other medical books. Dr. Lam has given over 100 lectures both nationally and internationally, and is a sought-after speaker at many medical conferences and symposiums worldwide.
