Dene Lebeau Receives the Kenneth D. Rudd Award by the American Prosthodontics Society

Dene LeBeau has been awarded the Kenneth D. Rudd award. This award recognizes a dental technician who has made significant prosthodontic contributions to the dental laboratory community.

Renton, WA, October 26, 2016 --(PR.com)-- The American Prosthodontic Society (APS) has honored Mr. Dene LeBeau with the prestigious 2017 Kenneth D. Rudd Award. The award was developed to promote and encourage dental laboratory technicians and support the advancement of dental technology education. The APS, together with the editorial council of The Journal of Prosthodontic Dentistry, presents this award to a certified dental technician who has made significant contribution to the advancement of prosthodontics and dental laboratory communities. Mr. LeBeau was chosen to be a guest speaker and will be acknowledged at the 89th Annual Meeting of the American Prosthodontic Society in Chicago on February 23, 2017.

About Dene LeBeau, President

Dene LeBeau is the President of LeBeau Dental Laboratory in Renton, WA and is the inventor and CEO of Implant Bite Post (IBP). Dene is also owner/manager of JKAD (John Kois Abutment Design). He is a member and recognized specialist at the Kois Center in Seattle, Washington and Advisory Board Member for Inside Dental Technology (IDT). Dene is also on the advisory board of Bates Technical College in Tacoma, Washington and was recently instrumental in adding digital dental laboratory technology to the course curriculum.
