

ChargeSmart EV Opens New EV Charging Station in Amherst, NY

ChargeSmart EV today announced the opening of a new electric vehicle charging station at the Buffalo Marriott Niagara in Amherst, NY. The new station expands ChargeSmart EV's Network, giving EV drivers in Amherst a reliable, convenient place to charge.

The station offers 26 charging ports — 18 Level 2 (J1772) and 8 DC fast chargers capable of up to 240kW (CCS/CHAdeMO).

Amherst, NY March 06, 2026 --([PR.com](https://www.pr.com))-- ChargeSmart EV today announced the opening of a new electric vehicle charging station at the Buffalo Marriott Niagara (Amherst Lodging Partners LLC.) in Amherst, NY. The new station expands ChargeSmart EV's network, giving EV drivers in Amherst a reliable, convenient place to charge.

The station offers 26 charging ports — 18 Level 2 and 8 DC fast chargers capable of up to 240kW. Drivers can locate the station and start a session directly through the ChargeSmart EV app, available on iOS and Android.

“What makes this site stand out is the mix — eight DC fast chargers alongside 18 Level 2 ports means we’re serving two completely different needs at the same location. A guest on a road trip gets a meaningful charge in 30 minutes. Someone staying the night wakes up fully charged and ready to hit the road. Twenty-six ports, two use cases, one stop. That’s the kind of infrastructure that actually moves the needle for EV adoption,” said Christian Spenziero, Co-Founder of ChargeSmart EV.

About ChargeSmart EV
